ANNUAL SYMPOSIUM

Our 3-day professional development conference brings together financial educators, researchers and practitioners to learn, exchange ideas and make lasting connections to help advance our field and strengthen the financial well-being of the individuals and communities that they serve.

“There is no substitute for eye-to-eye contact, handshakes, and hugs. We are building an industry and it takes lots of hands to put it together, and those hands come together at the Symposium.”

RESEARCH

AFCPE® was founded upon research and the need for comprehensive and rigorous standards in the field of personal finance. Over 35 years later, we still believe in the power of research.

AFCPE®’s Journal of Financial Counseling and Planning (JFCP) is a leader in scholarly research surrounding the financial decision making of individuals and families, providing evidence-based ideas and information that enhance the skills of financial professionals and impact best practices in our field. We are proud to create a community of financial professionals rooted in knowledge, skill and integrity.
The Association for Financial Counseling and Planning Education® believes in a future where all people — regardless of income or background — are empowered to achieve lasting financial well-being through the highest standards of financial counseling, coaching and education.
