

## About the Authors

**Kristy Archuleta**, *Financial and Relationship Satisfaction as a Function of Harsh Start-up and Shared Goals and Values*, is an Assistant Professor in the Personal Financial Planning program in the School of Family Studies and Human Services at Kansas State University. She teaches courses in the undergraduate and doctoral programs, including introduction to personal and family finance, research methods, and financial counseling. Her research interests include dyadic processes influencing marital and financial satisfaction, empirical based treatments for financial issues, and rural and farm families. In addition to teaching and conducting research, she is a Licensed Marriage and Family Therapist and practices in a local private practice.

**Sonya Britt**, *Financial and Relationship Satisfaction as a Function of Harsh Start-up and Shared Goals and Values*, is an Assistant Professor of Personal Financial Planning at Kansas State University. She teaches courses in the undergraduate and doctoral degree programs, including advanced personal financial planning, family and consumer economics, advanced research methods, and advanced statistics. Britt's research interests include theoretical development of money issues within marriage, predictors of money arguments and their influence on relationship satisfaction and divorce, and analysis of bio-assessment stress responses of clients and planners to financial planning and education scenarios.

**Lindsay Larson Call**, *Inmate Perceptions of Financial Education Needs*, is an adjunct faculty member at Brigham Young University - Idaho, teaching family studies courses online. She previously worked in the nonprofit sector, doing advocacy work for offenders, adjudicated youth, and youth in foster care. Her current research focuses on the economic socialization and formal economy participation of incarcerated individuals. She is interested in supporting prisoner reentry through financial literacy and life skills training.

**Swarn Chatterjee**, *Childhood Financial Socialization and Young Adults' Financial Management*, is an Assistant Professor of Family Financial Planning in the Department of Housing and Consumer Economics at the University of Georgia. He received his Ph.D. from Texas Tech Uni-

versity. His research interests include studying personal financial decision making of households across different stages of their life cycle and personal financial decisions of immigrants as they integrate into the American society.

**Randal Day**, *Inmate Perceptions of Financial Education Needs*, is the Camille Kimball Professor of Research within the School of Family Life at Brigham Young University. He received his advanced degrees from BYU and the University of Wisconsin - Madison. His research interests focus on father involvement and family processes. He is also interested in elements of family life that help us understand families who flourish. He has been married for 42 years and is the father of five children and grandfather of eight.

**Justin Dyer**, *Inmate Perceptions of Financial Education Needs*, is an Assistant Professor in the School of Family Life at Brigham Young University. His research methodology emphasis is in qualitative methods.

**Patti Fisher**, *Academic Discipline and Personal Finance Instruction in High School*, is an Assistant Professor in the Department of Apparel, Housing, and Resource Management at Virginia Tech. She earned a M.S. and Ph.D. in Family Resource Management from The Ohio State University and a B.S. in Consumer Economics from Indiana University of Pennsylvania. Her research interests include household saving, economic well-being, and personal finance education. She has published in the *Journal of Economic Psychology*, the *Journal of Financial Counseling and Planning*, *Hispanic Journal of Behavioral Sciences*, and *Financial Services Review*.

**John Grable**, *Financial and Relationship Satisfaction as a Function of Harsh Start-up and Shared Goals and Values*, teaches and conducts research in the Certified Financial Planner™ Board of Standards Inc. undergraduate and graduate program at the University of Georgia where he holds an Athletic Association Endowed Professorship. Dr. Grable served as the founding editor for the *Journal of Personal Finance* and the *Journal of Financial Therapy*. He was instrumental in the development of the Financial Therapy Association where he co-convened the first financial therapy working group in 2008. His research interests

include financial risk-tolerance assessment, financial planning help-seeking behavior, and psychophysiological economics. He currently writes an economics and investing column for the *Journal of Financial Service Professionals*.

**Sherman D. Hanna**, *The Impact of Stock and Real Estate Returns on the Propensity of Households to Meet the Capital Accumulation Ratio Guideline*, is a Professor in the Department of Human Sciences at The Ohio State University. He is the Program Director for the undergraduate financial planning program registered with the CFP® Board. He is also Chair of the Consumer Sciences Graduate Studies Committee. He has published in *Financial Services Review*, the *Journal of Financial Counseling and Planning*, the *Journal of Consumer Research*, the *Journal of Consumer Affairs*, *Family and Consumer Sciences Research Journal*, the *International Journal of Consumer Studies*, *Housing and Society*, *AAII Journal*, *Asia Pacific Advances in Consumer Research*, the *International Journal of Human Ecology*, the *Journal of Personal Finance*, and the *Journal of Family and Economic Issues*. He received a B.S. in economics from the Massachusetts Institute of Technology and a Ph.D. in consumer economics from Cornell University.

**Jinhee Kim**, *Childhood Financial Socialization and Young Adults' Financial Management*, is an Associate Professor and Extension Specialist in the Department of Family Science at the University of Maryland, College Park. She received her Ph.D. from Virginia Tech and M.S. and B.S. from Seoul National University in Korea. Her research interests are financial management of immigrants, financial socialization, and intergenerational transfers in the U.S. and other countries. She is also interested in health behaviors and financial strains/financial well-being.

**Peter A. Kindle**, *Book Review: Borrow: The American Way of Debt*, is an Assistant Professor in the Department of Social Work, School of Health Sciences, at the University of South Dakota. After a 30-year career as a Certified Public Accountant that began with auditing for Price Waterhouse and ended in a series of privately-owned corporate turnaround efforts, he returned to graduate school to retrain for an academic career. While earning three graduate degrees in psychology and social work, he gained college teaching experience inside a Texas state prison. He joined the USD faculty in 2010 to assist in the development of the new graduate program in social work. His research interests deal with financial literacy, poverty alleviation, and financial stress/strain in a dual economy that includes fringe and mainstream sectors.

**Elizabeth Kiss**, *Book Review: Mathematical Finance*, is an Assistant Professor and Extension Specialist in the School of Family Studies and Human Services at Kansas State University. She assists in the development and delivery of a statewide Cooperative Extension program in family resource management with emphasis on financial management. Developing the financial capability of youth, improving financial management skills of adults, and enhancing the marketplace know-how of consumers of all ages are primary areas of focus.

**Jodi Letkiewicz**, *The Impact of Stock and Real Estate Returns on the Propensity of Households to Meet the Capital Accumulation Ratio Guideline*, is an Assistant Professor in the Department of Child, Youth, and Family Studies at the University of Nebraska-Lincoln. She teaches financial planning at both the undergraduate and graduate level. She received a B.S. in business administration from Miami University and an M.S. and Ph.D. in family resource management at The Ohio State University.

**Cäzilia Loibl**, *Academic Discipline and Personal Finance Instruction in High School*, is an Associate Professor and State Extension Specialist in the Department of Consumer Sciences, College of Education and Human Ecology at The Ohio State University. Her research focuses on household financial behaviors. Dr. Loibl received her Ph.D. in Household and Nutrition Sciences from the Technische Universität München, Germany. She conducted post-doctoral studies at the Iowa State University and before joining OSU, implemented community-based financial literacy programs for University of Missouri Extension. She received her Certified Financial Planner™ designation in 2005.

**Barbara O'Neill**, *Book Review: Broke: How Debt Bankrupts the Middle Class*, is Rutgers Cooperative Extension's Specialist in Financial Resource Management. Previously a county Extension educator, she has written over 1,500 newspaper columns and over 120 articles for professional publications and served as 2003 President of the Association for Financial Counseling and Planning Education. A Certified Financial Planner (CFP®), Chartered Retirement Planning Counselor (CRPC®), Accredited Financial Counselor (AFC®), Certified Housing Counselor (CHC®), Certified Financial Educator (CFEd) and Certified Personal and Family Finance Educator (CPFEE), Dr. O'Neill is the author of *Saving on a Shoestring* and *Investing on a Shoestring* and co-author of *Money Talk: a Financial Guide for Women* and *Small Steps to Health and Wealth™*. She has

received over three dozen awards and over \$850,000 in grants for financial education programs and research.

**Angela R. Wiley**, *Inmate Perceptions of Financial Education Needs*, is an Associate Professor of Applied Family Studies in Human and Community Development at the University of Illinois and an Extension Specialist in Family Life. Dr. Wiley does research and programming in the community aimed at improving family resiliency. She is interested in identifying how family strengths, such as meal-times, can improve family resilience in the face of stress.
