

About the Authors

Swarn Chatterjee, *College-Based Personal Finance Education: Student Interest in Three Delivery Methods*, is an Assistant Professor of Family Financial Planning in the Department of Housing and Consumer Economics at the University of Georgia. He received his Ph.D. from Texas Tech University. His research interests include household investment decisions, financial well-being of immigrants, and health insurance dynamics.

Brenda J. Cude, *College-Based Personal Finance Education: Student Interest in Three Delivery Methods*, is a Professor of Consumer Economics at the University of Georgia. Her current research focuses on financial literacy, specifically for the college student population. When this research was conducted, she was the director of the Georgia Peer Financial Counseling Program.

Jeffrey Dew, *The Financial Management Behavior Scale: Development and Validation*, is an Assistant Professor in the Department of Family, Consumer, and Human Development at Utah State University. He teaches family studies courses and graduate level statistics courses. He researches the association between family resources (money and time) and family relationships. Dr. Dew received a dual-title Ph.D. in Demography and Human Development and Family Studies from the Pennsylvania State University.

Michael Finke, *Financial Advice: Who Pays*, is an Associate Professor and Ph.D. Coordinator in the Division of Personal Financial Planning at Texas Tech University. He received his Ph.D. in Family Resource Management from The Ohio State University and is currently a doctoral candidate in Finance from the University of Missouri. He is also a Certified Financial Planner. Research interests include predictors of saving, household financial cohort trends, and behavioral household finance.

Joseph Goetz, *College-Based Personal Finance Education: Student Interest in Three Delivery Methods*, is an Assistant Professor of Family Financial Planning in the Department of Housing and Consumer Economics at the University of Georgia. His research focuses on financial risk tolerance, financial therapy, and experiential education in financial planning. He received his bachelor's degree in psychology from the University of Missouri-Columbia, and completed his doctoral work in consumer economics and financial planning at Texas Tech University. Dr. Goetz

is also a principal at Elwood & Goetz Wealth Advisory Group, an independent, fee-only financial planning firm based in Athens, Georgia.

Deborah C. Haynes, *Outcomes of On-line Financial Education for Chronically Ill Rural Women*, is an Associate Professor of Consumer Economics in the Department of Health and Human Development at Montana State University. She received her Ph.D. from Cornell University in consumer economics. Her research and creative work has been in the area of financial education for high school, college, and adult populations. She has served on the Board of Directors for the American Council on Consumer Interests.

George Haynes, *Outcomes of On-line Financial Education for Chronically Ill Rural Women*, received his undergraduate degree in economics from the University of Montana, a master's degree in applied economics from Montana State University, and a Ph.D. in consumer economics from Cornell University. Currently, Dr. Haynes is a professor and extension specialist in the Department of Agricultural Economics and Economics at Montana State University. Dr. Haynes' primary line of research has been in family business finance, where he has examined the intermingling of family and business resources, explored changes in the financial structure of family business, examined the lending behavior of depository institutions and assessed the response of family businesses to disasters and disaster assistance. He is the past president of the American Council on Consumer Interests and is an associate editor of the *Journal of Family and Economic Issues*.

Sandra Huston, *Financial Advice: Who Pays*, is an Associate Professor in the Division of Personal Financial Planning at Texas Tech University. She received her Ph.D. in Consumer Economics from the University of Missouri-Columbia. Research interests involve analysis of human capital related to personal finance including financial literacy, the impact of using of financial advice in household decision-making, and the impact of financial sophistication on resource allocation within household portfolios.

Yoko Mimura, *College-Based Personal Finance Education: Student Interest in Three Delivery Methods*, is a Research Professional in the Department of Housing and Consumer Economics at the University of Georgia, where she also received her doctorate degree. Research

interests in the area of family finances include savings among women.

Robert B. Nielsen, *College-Based Personal Finance Education: Student Interest in Three Delivery Methods*, is an Assistant Professor of Consumer Economics at the University of Georgia. His research investigates how individual and family financial conditions are related to the physical, relational, and economic well-being of family members. Prior to joining the faculty at the University of Georgia, he was an Economic Statistician in the Poverty and Health Statistics Branch of the U.S. Census Bureau where he worked on the health insurance components of the Survey of Income and Program Participation. He earned a Ph.D. in Family Policy at Iowa State University, a M.S. in Family Ecology from the University of Utah, and B.S. degrees in Political Science and Consumer Studies and Family Economics from the University of Utah.

Barbara O'Neill, *Book Review: Broke USA: From Pawnshops to Poverty, Inc. How the Working Poor Became Big Business*, holds the rank of Professor II in the School of Environmental and Biological Sciences, Rutgers University, and is Rutgers Cooperative Extension's Specialist in Financial Resource Management. She provides national leadership for the Cooperative Extension program *Small Steps to Health and Wealth™* and directed the 5-year MONEY 2000™ savings and debt reduction campaign in the 1990s. Dr. O'Neill has written over 1,500 consumer newspaper articles and over 125 articles for academic journals, conference proceedings, and other professional publications. She is a certified financial planner (CFP®), chartered retirement planning counselor (CRPC®), accredited financial counselor (AFC), certified housing counselor (CHC), certified financial educator (CFEd), and certified in family and consumer sciences (CFCS). Dr. O'Neill served as president of the Association for Financial Counseling and Planning Education in 2003 and is the author of two trade books, *Saving on a Shoestring* and *Investing on a Shoestring*, and co-author of *Money Talk: A Financial Guide for Women*, *Investing for Your Future*, and *Small Steps to Health and Wealth*. She has also written three financial case study textbooks and six book chapters. Dr. O'Neill received her Ph.D. in family financial management in 1995 from Virginia Tech. She has received over three dozen awards for program excellence and over \$550,000 in funding to support her financial education programs and research.

Aimee D. Prawitz, *Book Review: Financial Planning and Counseling Scales*, is a Professor in the School of Family, Consumer, and Nutrition Sciences, and Assistant to the Dean for Research in the College of Health and Human Sciences at Northern Illinois University (NIU). Her Ph.D. in Human Ecology with specialization in Consumer Science is from Louisiana State University. Dr. Prawitz also serves as the Director of Research for the Personal Finance Employee Education Foundation. Dr. Prawitz teaches an undergraduate course in management of human and family resources; her graduate teaching has been in research methodology. Her research is focused on the effects of financial education on financial wellness and financial behaviors. Dr. Prawitz has published over 50 articles in refereed journals and conference proceedings and has made over 50 presentations at national and regional conferences. Dr. Prawitz has served as the editor of the *Journal of Consumer Education* and is on the editorial boards of two professional journals. She was awarded the College of Health and Human Sciences' Sullivan Award for Research at NIU in 2005 and 2010.

Cliff A. Robb, *Financial Knowledge and 'Best Practice' Behavior*, is an Assistant Professor in the College of Human Environmental Sciences at the University of Alabama. He received his B.A. in Psychology from the University of the South, his M.S. degree in Consumer Economics from the University of Alabama, and his Ph.D. in Consumer Economics and Personal Financial Planning from the University of Missouri-Columbia. Current research interests include financial knowledge measurement, college student financial behavior and credit card use, and behavioral aspects of personal finance in general. He teaches courses to graduates and undergraduates in consumer economics, public policy analysis, and personal financial planning. He serves on the editorial boards for the *Journal of Consumer Affairs* and the *Journal of Financial Counseling and Planning*.

Rebecca J. Travnichek, *Book Review: Nudge: Improving Decisions About Health, Wealth, and Happiness*, is a Regional Family Financial Education Specialist with University of Missouri Extension. She earned a Ph.D. from Auburn University in the Department of Agricultural Economics and Rural Sociology with an emphasis in Family Economics. In addition, she holds a M.S. in Housing, Interior Design and Consumer Studies from Oklahoma State University and a B.S. from Emporia State

University. Dr. Travnichek is an Accredited Financial Counselor through the Association of Financial Counseling and Planning Education and has received a Graduate Certificate in Personal Financial Planning from Kansas State University. She serves as President-Elect of the Association for Financial Counseling and Planning Education and is Proceedings Editor for the September 2011 Financial Therapy Association Conference. Her research interests include improving consumer knowledge regarding identity theft, fraud, and scams; personal financial management among incarcerated men and women; and financial skills development in youth.

Clarann Weinert, *Outcomes of On-line Financial Education for Chronically Ill Rural Women*, is a Professor at Montana State University College of Nursing and a Sister of Charity of Cincinnati. Sister Clarann received a B.S.N. (nursing) from the College of Mount St. Joseph on the Ohio, M.S. (nursing) from The Ohio State University, and M.A. and Ph.D. (sociology) from the University of Washington. She has a 30-year funded program of research on the management of chronic illness which currently includes: use of computers as a means for providing support and health information to isolated rural woman; use of complementary therapy by rural residents; development of a measure of CAM Health Literacy; community-based enhancement of health literacy for older individuals in very small rural towns, and a study of the health status and needs of persons exposed to asbestos from vermiculite ore mined in Libby, MT. Dr. Weinert is widely published in social support, rural health, measurement, chronic illness management, and technology applications. She is a Fellow in the American Academy of Nursing and the Western Academy of Nurses, as well as, a charter member of the Sigma Theta Tau International Nurse Researcher Hall of Fame.

Danielle Winchester, *Financial Advice: Who Pays*, is an Assistant Adjunct Professor in the Department of Economics and Finance at North Carolina A&T State University. She is currently a doctoral candidate in Personal Financial Planning at Texas Tech University. Her research interests include the value of financial advice, financial literacy, and gender differences in financial decision making.
