

STEPS FOR SUCCESS

STAND OUT. GET HIRED FASTER.

Brazen allows you to be strategic in marketing yourself to potential employers. When you attend an event on the Brazen platform, you are connected directly with recruiters and hiring managers. Enhanced digital features allow you to tailor your event experience and maximize your time. The platform has been designed to help you demonstrate your interest and show initiative.

DISCOVER TOP COMPANIES

Put your job research into good use by prioritizing companies you would like to connect with during the event. Our searching capabilities allow you to narrow down the company booth list, giving you more time to acquaint yourself with the booth content for the companies of your choice.

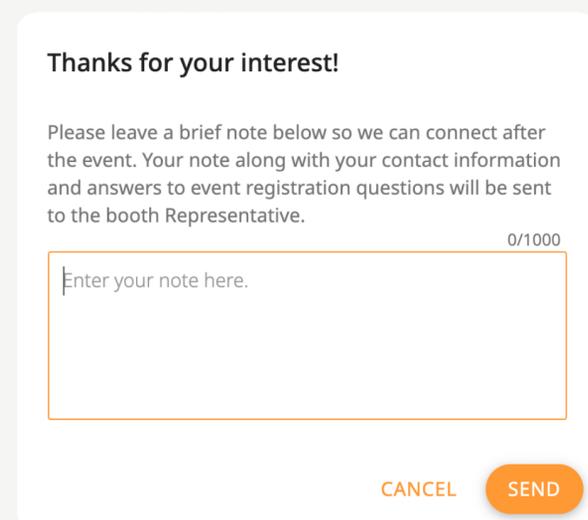

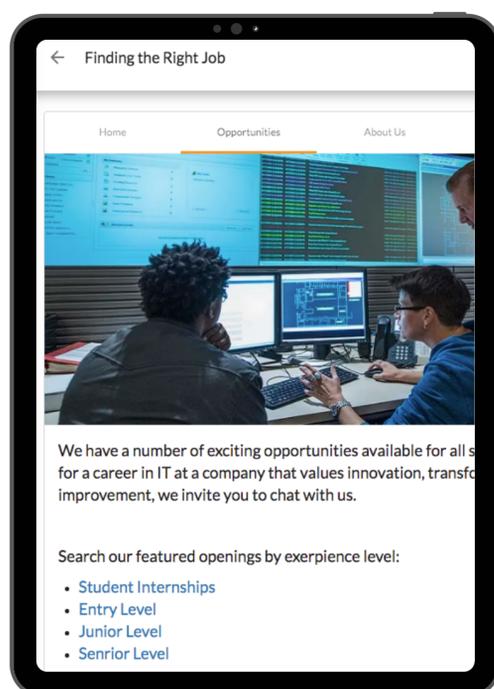

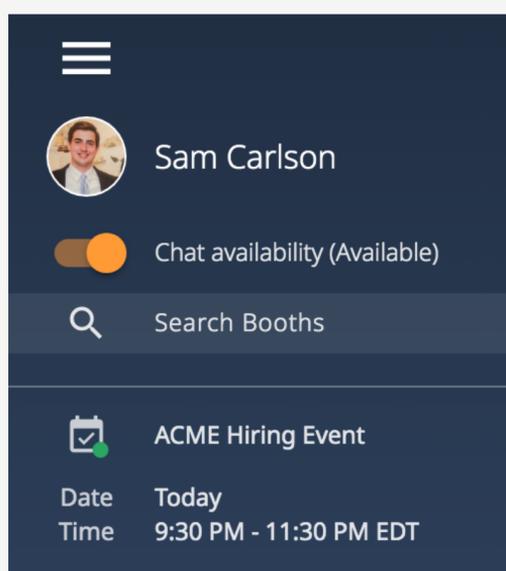

FIND THE RIGHT OPPORTUNITY

Your dream job exists and it's only a few clicks away when you are attending a Brazen-powered event. In each booth, browse through the company's content and search through the jobs made available by them to ensure you are talking to the right people about the right opportunities.

MAKE A LASTING IMPRESSION

Didn't have a chance to chat with an employer? Show your interest and highlight your profile by leaving a note for booth representatives. They will receive an email with your message and you will get closer to standing out from the crowd. [Learn more about using Drop-off Note during the event.](#)

Pro Tip! Registering ahead of time can improve your engagement with recruiters and hiring managers during the event. Upload your resume for a complete profile that will get you noticed by employers even days before the event begins.
